Helmet must be in good condition and is subject to pre-race technical inspection. It may also be inspected if it is damaged in an accident. If the helmet shows any damage, FKR recommends that it be returned to the manufacturer for testing and recertification. Helmet must be secured with a strap. The driver is responsible for making sure that his or her helmet fits properly and is securely fastened before entering the racing surface. In the case of a minor, this is the parent or guardian's responsibility. Failure to properly secure the helmet before entering the racing surface may result in disqualification.
