

Formula Kart Racing announces partnership with Club Mini Max

Formula Kart Racing recently added the popular Mini Max class to it's 2005 Florida Winter Tour class lineup. Part of the reason for this addition was the formation of new program for Mini Max competitors.

"This partnership will benefit Formula Kart Racing with additional entries from what has historically been a very competitive class, and it will benefit current and potential Mini Max class competitors with a central location for information, increased exposure and identity, and best of all, a real safety improvement for the youngsters", said Bill Wright of Formula Kart.

In an ongoing effort to make karting for kids safer, friendlier and more competitive, CLUB MINIMAX, a non-profit organization, was created by Mr. Joe Gennari. The idea behind this club is to have all kids between the ages of 8 and 12 to be part of history. The club will have a website www.clubminimax.com with profiles of each driver, information about events and even a forum where the kids can log in and chat with other competitors. Safety is the foremost important issue on Gennari's mind. **For that reason, every driver registering for the MINIMAX race in Moroso will receive a free chest protector from Club Mini Max.** "There is currently no cost involved in becoming a member of Club Mini Max. All I ask is that every driver must wear the protective gear at all times at the track" says Gennari. " We hope to see you all at the race. **If you are planning to come and join us at Moroso send an e-mail to info@clubminimax.com so we make sure all kids will have a vest available.**"
