

Formula Kart Florida Winter Tour goes "LIVE" online and wireless

Formula Kart Racing is proud to announce that beginning with the Jacksonville rounds of the Formula Kart Racing Florida Winter Tour, presented by Fittipaldi Racing Karts, web enthusiasts will be able to watch "live" results at www.floridawintertour.com , and event participants will have wireless connectivity to the timing and scoring information at the event site.

Formula Kart's Bill Wright : " We've been fine tuning the "LIVE" functions at the first two event-weekends, and now feel confident we can provide the results in the way we intended. Web surfers will see event results within seconds of the completion of the on course sessions. Participants at the event site will be able to view real-time timing and scoring using the AMB RMon software on their wireless computers. We've got 4 AP points spread throughout the pit area, so anyone within the 103rd Street complex should have no problem getting the data. We've worked very hard do get this done. I'd like to thank Aaron McCarthy, Tom Thelen and Carla Bjorklund for their efforts. I'm sure all our fans will enjoy the results of their work. "

Interested participants can view "FK LIVE" and download the AMB RMon software at the "RESULTS / POINTS" link at www.floridawintertour.com . FK will announce the wireless IP's each day at the event site.
