

Bridgestone: Official Tire of 2005 Florida Winter Tour

Formula Kart Racing names Bridgestone as the Official Tire of the 2005 Florida Winter Tour.

"Formula Kart Racing is pleased to announce that, through the diligent efforts of Keith Freber of Margay Racing Products, we will return to racing on Bridgestone tires in the 2005 Florida Winter Tour." stated Bill Wright of FKR. "The Tour is used by many top teams and drivers as a preparation for the upcoming National racing year, so it's important to provide them as much quality testing as possible. The use of Bridgestone tires in this year's Tour makes the Teams efforts here that much more valuable. I would like to personally thank Keith for his efforts, the deal wouldn't have happened without him. "

Keith Freber : " We at Margay Racing Products are extremely pleased that Bridgestone will be the Official Tire of the 2005 Florida Winter Tour. The Florida Winter Tour provides an excellent venue for those Teams and karters that want to keep their competitive edge during what many consider the "off season". Bill Wright of Formula Kart Racing has nurtured a series that continues to gain momentum and build on its past success. Moroso, Homestead and Jacksonville are all seriously fun tracks to compete on. We expect this to be the best Winter Tour yet."

Margay Racing Products has been a Bridgestone kart tire distributor for over 25 years. They also manufacture the Margay line of racing karts, winner of the WKA Manufacturers Cup for the last three years, and arguably the winningest line of chassis in North America, with multiple National, Regional and local Championships.
