Formula Kart Productions, Inc. announced today that the Pro Shifter and ICA classes in the 2006 FL Winter Tour, presented by BTK / Arrow Racing Karts, will be added to the 2006 Super Kart Illustrated magazine Driver Rankings.

"The Florida Winter Tour has become one of the most important series in the sport," offered Rob Howden, Super Kart Illustrated Publisher. "It's our spring training for the national level teams and with the addition of the ICA category this year, it's going to be even more important for drivers to get a jump on the new season. Adding the series to our ICA driver rankings makes perfect sense as it will give us a better opportunity to get some points on the board for the rookie drivers. As a result, our ICA rankings will be a better indication of the category's power players from the first race of the season."

FK's Bill Wright: "I'm honored that SKI recognizes that we've got a very competitive program, worthy to be included in the SKI Driver Rankings. Now our Pro Shifter and ICA drivers can use the FL Winter Tour to get a good jump on the chase for the prestigious 2006 SKI Driver-of-the-Year awards. I have no doubt that this addition will make the 2006 Tour more competitive than ever."
