

TaG Heavy class rules updates

I've had several requests for detailed info about this class. I apologize for not responding sooner, but I, like you, have been waiting for RMax and TaGUSA to make decisions about their 2006 rules.

1. In the 2006 FL Winter Tour TaG Heavy class, front brakes **will** be allowed for **all** engine/chassis combinations, with **no** weight penalty.
2. We will follow the (eventual?) RMax ruling relative to hand operated front brakes.
3. We will use the **2006 TaG USA MASTERS CLASS** weights. They have just been released at www.tagracing.net . We will **not** have a minimum driver weight.

I hope this helps those of you who have been waiting on the ruling. For more information about the Tour log on to www.floridawintertour.com .
